Residential Energy Code Update on the Do's and the Don'ts

This session will provide the attendee with an understanding of the Residential Energy Code including an in-depth look at the foundation systems and the requirements of the code. The class will also answer any of the questions as to why the code requires certain things. The session will also provide the attendee with an understanding of the code process of how codes become law. The instructor will answer any questions you may have on the code and will provide a brief look into the future of where the codes are headed.

INSTRUCTOR:

Don Sivigny

Energy Specialist and Senior Building Code Rep

MN Department of Labor & Industry

The above classes are pending approval by the MN Department of Labor & Industry for continuing education for residential building contractors, remodelers, roofers and building officials.

Wednesday, March 21, 2018
