

## Kitchen/Powder Room/Master Bath

# INTERIORS BY J.CURRY, LLC

**BEFORE**

**AFTER**

## 834 7th Ave SW

**Directions:** From Hwy 52 N, take the 6th St SW exit // Turn right on 6th St SW // Turn right onto 7th Ave SW // The home is a "Red Barn" on the left.

### Project Goals:

1. Open up kitchen area to dining.
2. Extend vanity and create walk-in shower in master bath.
3. Add main floor powder room and update fireplace to gas.
4. Maintain some of the original character and details of home.

Come see this unique landmark Cottage home originally built for Mr. Newton Holland in 1927, and designed by Harold H. Crawford. He was responsible for designing many of the Historic SW homes of Rochester. Its unique barn style roof and stone pillar entrance are hints of the character that lies within. A bit of a farmhouse charm was incorporated into the overall style of the renovation, but with many new amenities that you must see to believe with this before and after transformation.
